MEMORANDUM FOR: Chief, Operations, OC
INFO : Chief, Communications Engineering
25X1 FROM :
Chairman, OC Equipment Board
SUBJECT : Reduction of Field Station Equipment
Inventory 25X1

25X1 1. It is requested that a study be undertaken to consider the feasibility of a program aimed at reducing the number of different types of equipment in an overseas field station in the future. The purpose being to simplify operations and maintenance. The attached Memorandum for the Record cites some examples of possible dual usage of equipment.

25X1 2. Upon completion of the study, a presentation of the results to the Equipment Board would be helpful. 25X1
